iesa20 International Conference

iesa20 will share research, experiences and outcomes which emerged nationally and internationally from the 'Inserimento Eterofamiliare Supportato di Adulti' (IESA) -Supported Shared Living.

By IESA we mean a model of care in which people welcome into their homes people who need psychological or other support. These cohabitations are supported by specially trained professionals and may have a therapeutic or rehabilitative aim.

The IESA is present in various European countries, including Italy which has had a model for twenty-three years, and it has the potential to generate significant social, cultural, political and economic impacts.

The iesa20 conference takes place online and in Turin on the 26th and 27th of November, 2020.

The two-day programme covers the learning, evidence and good practice which has emerged in the international field. We aim to share this learning, support participants to be able to reproduce good practice with fidelity to the values and ethos of this growing movement, and to promote legislative recognition of the IESA at national and European level.

A certificate of attendance is issued by the organising bodies to all registered participants upon request to the Organising Secretariat office.

Official language: Italian with translation from / into English.

When

In order to maintain high attention and protection for people due to COVID 19, the conference will be managed online on the Meet platform and Youtube live streaming.

Conference control room: Complesso Passepartout, Area Conferenze 2nd floor Corso Unione Sovietica, 220/D. Accessible entrance: Via San Marino, 22/A.

How

Participation is free upon registration on the website: www.iesa20.it or write to the email: convegno@iesa20.it.

The seminars scheduled for the 27th of November, in the afternoon session, require prior registration with the LuovodiColombo Association - deadline 16th of November.

To whom it is addressed

To professionals in the field of health and well-being, to social and cultural workers, to people involved in social and health policies and institutions.

Anyone interested in knowing and discussing the opportunities and developments that the IESA model can generate at a community level.

iesa 20 Europe | *Models, visions, experiences*

26th November 2020

The session is oriented to the rediscovery and dissemination of the organizational and therapeutic value of the IESA in Italy and in the world, offering an organic corpus of theories, knowledge and experiences of care in favor of people with mental disorders and opening up to other contexts of fragility.

WHO WE ARE

Collective of professionals, associations and organizations dealing with IESA at an international

ORGANIZING BODY

LuovodiColombo was founded in 2007 as a Social Promotion Association and ONLUS. The aim is the psychiatric treatment, the tool is the Diffused Therapeutic Community. The association supports people welcomed in IESA projects or in other forms of hospitality, creating a value network between guests, families and hosts, operators, clinics and social services. The association pursues its aims by weaving synergies with Alice nello Specchio social cooperative and numerous partners, finding its 'raison d'être' in this intertwining of collaborations.

IN COLLABORATION WITH

Alice nello Specchio (AnS) is a non-profit Social Cooperative. In 1997 it suggested to the ASL of Collegno to practice the IESA model - as part of the projects to replace the Psychiatric Hospital, contributing with know-how and human resources to the first Italian IESA service in the public sphere. For over 30 years Alice nello Specchio has been working in Piedmont in the field of psychosocial rehabilitation, accompanying its guests to personal autonomy. Since 1996 Alice nello Specchio has been organizing events in the areas mentioned above.

Dymphna's Family: European scientific journal on IESA (Inserimento Eterofamiliare Supportato di Adulti).

IFREP: Institute for Training, Research and Evaluation of Health and Social Practices in Paris. IFREP

ONAF: National Observatory of Family Assistance, France

Servizio IESA ASL TO3 - Centro Esperto Regione Piemonte: founded in 1997 by Doctors Gianfranco Aluffi, Pier Maria Furlan and Ezio Cristina. It has become Centro Esperto Regione Piemonte on IESA since 2016.
